

Speakers

21-23 May 2008 The Sage Gateshead, NewcastleGateshead, UK

Bradley de Souza

Bradley de Souza is a leading industry strategist, advisor and entrepreneur whose CV includes VP of R&D at O2 and Head of Technology at BBC Online.

Bradley advises companies on the best way to use technology to improve and maintain competitive advantage. His extensive experience in Telecommunications, Technology, New Media, Electronic Publishing, Broadcasting and Venture Capital, has made him an invaluable asset to organisations.

Bradley is motivated by the challenges that convergence opportunities bring. His international career and multi-industry background give him a unique insight into the issues modern businesses face when trying to balance the technology equation.

He consults widely for the venture capital and private equity industry as well as advising companies in the technology, media and telecoms sectors.
